Cleaner Description Free Malware Scanner is a utility that comes with a built-in malware scanner. The app scans your drive for unwanted files, making sure that you don't end up with a bunch of unwanted software on your machine. Auto-Fix Among the features of the utility, you will find the "Auto-Fix" feature. From time to time, you might notice some system issues that could lead to further problems. Rather than using a lot of your time trying to fix them manually, this feature can automatically fix the problem. All you have to do is open the program and let it do its job. Automatic Updates One of the great things about the app is that it keeps itself updated. When new versions are available, they are instantly updated. So, if you plan to use the utility on your system, make sure you have the latest version. On-the-Fly Scanning An optional tool in the application allows you to select a drive and let the program scan it on the fly. It instantly scans your entire system and finds any dirty stuff. Future Updates In case the program encounters problems during scans, you can always rely on the "Future Updates" option to get more recent builds of the application. With support for.txt,.com,.doc,.htm,.html,.xls,.png,.jpg and.gif extensions, you can browse the internet easily. You can easily share your favorite stuff with others.
